

O1 SOMERSET BATH SKYLINE

Distance: 5½ miles/9km Time: 2½ hours Grade: Easy

CHOSEN BY... JEN & SIM BENSON Bath is a beautiful city to visit, with its

majestic, honey-coloured
Georgian architecture and
pretty parks. It's also an easy
city to escape from, with a
short but steep climb from its
eastern edges taking you to
the airy green spaces high
above the urban sprawl where
leafy woodland and wildflower
meadows feel like another
world altogether. The Bath
Skyline is National Trustowned and the walk is
mostly waymarked.

Start 7

From Bathwick Hill, facing away from Cleveland Walk, take the footpath (signed Bath Skyline) south-east across the fields to a gate onto a lane. Head south along the lane to the junction by the cemetery, cross the junction and follow a track and then a footpath across another field heading south-east to reach the road (Widcombe Hill).

→ ¾ mile/1km

Turn L and follow the road uphill for 100m then cross and take the footpath R heading south-east through woodland. At the track junction top of hill turn R and follow track south.

1½ miles/2.4km

When you reach a path cross roads turn L heading south-east and then curving north-east on a smaller path.
